- 2) Claims 1-17 are allowed.

- 3) The following is an examiner's statement of reasons for allowance:

Referring to claims 1-16, the claims, as amended, are allowable over the prior art of record for the reasons noted by applicant's representative in the "Remarks" section of the amendment filed 2/28/05.

Referring to claim 17, the prior art of record does not explicitly teach a method for controlling and supervising an electronic device comprising providing a concentrator connected to two or more controllers by a common bus, providing said concentrator with information concerning data items and their arrangement in registers, and wherein each controller validates only a pre-established part of a message in accordance with a corresponding use relation, in combination with the remaining elements or features of the claimed invention.

***Conclusion***

- 5) Although not used in any previous office action, the Examiner wishes to add a few pieces of related prior art to the record. These have been noted on the attached PTO-892.
